

Attention Colonies!

The actions of King Yuckabella are becoming intolerable!

The king does not treat us fairly. He has raised the taxes to almost ten dollars per day, for the Bloodybacks getting what they deserve. Colonists were killed, for God's sake!

We must do something about this. The king cannot go on toying with us like puppets he can do as he wishes with.

The king has declared innocent people criminals, brought up taxes, taken away people's home, and made us pay to turn in work. If this goes on much longer, we won't be able to take care of or support ourselves.

To STOP this treachery, please consider doing the following to help carve a better future:

1. Don't pay the taxes! If we stop paying, the king will bring down taxes.
2. Defend the innocent! Do not be cowardly and stand by while the king's soldiers take unlucky and innocent people away, tearing apart their lives like this paper probably will be.
3. Refuse to buy things from the king! He will have to change his ways so they satisfy us.
4. Do not sell and/or give to the king!
5. Do not join as a Lobsterback! They are traitors to the colonies, unless they are on our sides.

It would be greatly appreciated if you would help, every person matters.

For the colonies! - Anonymous
